# Free Software in South America

Josef Spillner <josef@coolprojects.org> :: [21C3 - The Ususal Suspects] :: XX.12.2004

# Here in Germany

- BMWi/BMWA?
- BSI
- Bundestax
- much more... BUT!

# Introduction

- Marcelo Tosatti
- Conectiva
- Kurumin
- Slackware (GUS)
- Java
- the major share of "hackers" comes from... Brazil?!

# Culture

- 180 million (mostly young) people
- i18n, l10n, g11n
- orkut: more Brazilians than (US-)Americans
- strong language
- communities: openoffice.org.br (formerly only pt\_PT), CCL, Gnome Brasil (Fórum Gnome), ...
- Debian BR and state organizations

## Other cases

- Metrô of São Paulo
- Varig
- ATMs (booting Tux)
- Caixa (Kurumin/Linux Caixa): 63,000 copies
- Ministry of Health ([softwarelivre.datasus.gov.br](http://softwarelivre.datasus.gov.br))
- Ministry of Defense (CETEX): "LPI required"

# More organizations

- Abrasol
  - \* seal: produced with Free Software
  - \* all national productions, not just software
- MSL
- Project centers (GForge)
  - \* Código Livre
  - \* FANESP Incubadora

# Other countries

- \* Argentina
  - SolAR
  - softwarelibre.gov.ar
- \* Paraguay
- \* Uruguay
  - UyLUG
- \* Colombia
  - Colibrí
  - SL Colombia
- \* Venezuela
  - mci.gov.ve
- \* Chile
  - refer to the talk at LinuxTag 04!
- \* Perú
  - APeSoL
- \* México (Latin America)

# Telecentros

- São Paulo, and other cities
  - \* telecentros.sp.gov.br
  - \* RS: telecentros.com.br
  - \* Latin America: tele-centros.org
- Social and digital inclusion
- alimentation for Fome Zero during the inscription period
- Sacix: 550,000+ users
- Metareciclagem (WLAN in favelas)
- City administration of SP: zope, copyleft

# The Itaipu case

- Itaipu Linux
- Installfest in Foz do Iguaçu
- Latinware November 2004
- Fórum Gnome November 2004

# Questions?

Yes you do have questions!

# PSL Brazil and sub projects

- PSL on the state level
- PSL Mulheres
  - \* Debian Women
  - \* KDE Women
- Forum Internacional (FISL)
  - \* KDE in Brazil
  - \* ITI vs. Microsoft
  - \* Linux Magazine Brasil (previously: Revista do Linux)

# Chances and the future

- Independence of the first world
- Internet commission (CGI) and other strategic groups
- WIPO request (together with Argentina)
- "we do not need software patents"
